

Anders Schatzmann

Data Analyst

Statistician and GIS specialist
MSc ZFH

After completing a technical apprenticeship, Anders Schatzmann studies Business Administration and Engineering with a focus on analytical production and process optimization between 2007 and 2010. This is followed by the master's degree in Business Engineering with a focus on Applied Statistics until 2013.

Parallel to his master studies, he works as a scientific assistant at the Institute for Data Analysis and Process Design (IDP) of the ZHAW, where he contributes to projects on predictive maintenance and churn forecasts. After completing his studies and a further year at the IDP as a research associate, he moves to Swisscom Switzerland AG where he works as a geo data analyst. Main tasks are models for estimating local market and customer volumes as well as infrastructure expansion costs.

Since January 2018, he has been working at Fahrländer Partner Raumentwicklung.
