

Bettina Baumberger

Real estate valuer

MSc ETH Arch. / SIA

MAS UZH in Real Estate (CUREM)

Bettina Baumberger studied architecture at the ETH Zurich. After completing her studies in 2004 and several internships in Switzerland and abroad, she joined EM2N Architects in Zurich. As project manager, she was responsible for the renovation and new construction of the Cinémathèque suisse.

In 2012, Bettina Baumberger founded her architecture firm together with Annina Wassermann. As CEO and co-owner, she managed the company until 2023 with a focus on residential construction. In this role, she was the contact person for private and institutional clients in all matters relating to the planning and realization of construction projects.

Having completed further training in real estate management, Bettina Baumberger has been responsible for her family's real estate portfolio since 2023. She takes on an overarching coordination and management function.

Bettina Baumberger joined Fahrländer Partner Raumentwicklung in September 2024.
