

# Dani Isenegger

## Data Analyst

Geoinformatics and GIS specialist

Dr.sc.nat

Dani Isenegger studies geography at the Institute of Geography of the University of Zurich between 1992 and 1998 and obtains a master's degree in the field of Geographic Information Systems (GIS).

After completing his studies, he works for 3 years as an application developer in the "Business Case Data" project at UBS.

From 2002 to 2006 Dani Isenegger completes his doctoral thesis at the Institute of Geography of the University of Zurich in the field of GIS with the title "IPODLAS - A software architecture for coupling temporal simulation systems, VR, and GIS".

After a postdoc at the Institute of Cartography (IKA) of the ETH Zurich, Dani Isenegger is working as a software engineer at Esri Switzerland in Zurich since 2008. His work focuses on developments on the Esri platform. This is mainly in the area of geoprocessing in Python on the various desktop and online applications of ArcGIS, but also in various project management and consulting positions at customers.

Since January 2020 he works for Fahrländer Partner Spatial Development.
