

Peter Ming

Partner

Business Informatics Specialist MSc UZH

Between 1999 and 2006, Peter Ming studied Business Informatics at the Department of Informatics of the University of Zurich and obtained a Master of Science in Business Informatics.

After completing his studies, he worked for four years as a research associate for the Communication Systems Group on the “Biometric Access Control Management” project at the Department of Informatics of the University of Zurich.

From 2007 to 2010, together with partners, Peter Ming founded the company BMCast GmbH with the aim of marketing the integration and operation of biometric access control systems.

After his self-employment, Peter Ming worked for two years as a Software Engineer and Architect at Bitbee Solutions GmbH in Zurich, and in 2012 he moved to Zurich Airport where he worked for three years as a Senior Application Engineer. His work focused on the development of web and client applications. From 2015 to 2021, Peter Ming was Head of IT Customer Platforms and Lead Architect/Expert Software Engineer at ARGUS DATA INSIGHTS Schweiz AG.

Peter Ming joined Fahrländer Partner Raumentwicklung as a software developer in July 2021 and became Partner in 2026.
