

Sabine Horisberger

Consultant

Architect and economist

Dipl. arch. ETH/SIA, lic. oec. HSG

After graduating as an architect from the ETH Zurich (2001), Sabine Horisberger worked in her own office and at the same time completed her second degree in economics at the HSG St. Gallen (2005).

Before moving to the banking sector, she worked as an architect and consultant in Switzerland and abroad. Initially working in real estate valuation, she was later responsible for various functions in real estate asset management in third-party businesses with real estate funds and investment foundations under Swiss law.

After a stay abroad, from 2017 Sabine Horisberger worked in M&A consulting with a focus on real estate and was most recently responsible for setting up and implementing a new real estate fund for various insurance companies. She also acted as a representative to investors and owners in real estate portfolio management.

Sabine Horisberger is an accredited real estate valuer, a member of the Royal Institution of Chartered Surveyors and holds the Swiss Fund Officer Diploma. She acts as a specialist juror for various architectural competitions and is involved as a mentor and expert at CUREM, among others.

Sabine Horisberger has been working at Fahrländer Partner Raumentwicklung since January 2024.
